### **ConnectMed 24/7**

### **Patient Portal**

**Access your Medical Records, Order Repeat Prescriptions,  
View Your Results & Make Appointment 24 hours a day,  
7 days a week, 365 days per annum.**

#### **Test Results:**

Once you have been activated on ConnectMed you will be able to see "Filed" Test Results that the doctor has commented. Please be aware that test results can take different lengths of time to become available.

If your results are normal, or your GP is not concerned with the result, and there are no additional comments in the Comments Field – there is no further action required. Crawford Medical Centre does not contact you for normal results.

We recommend that you make an appointment with your doctor or nurse if you have any questions or concerns regarding your test results.

#### **Repeat Prescriptions:**

You can order Repeat Prescriptions for all your **Medications Marked as Long Term** in the MedTech Practice Management System. If your medications are not marked long term you will not be able to see them. This direct matching process improves patient medications safety by reducing transposition errors.

#### **Making Appointments Online:**

You can make 15 minute appointments online with your GP or any other GP that has "Open Books." You will be unable to make appointments with doctors that have "Closed Books." New Patients need to phone for an appointment.
